OVERVIEW

In a quiet corner of Val di Mezzane, sunny and windy valley, we find a tiny jewel of Valpolicella. 5 hectares that aim for becoming an expression of a different concept of winery: young yet authentic, innovative yet always in straight contact with nature, in one of the most traditional and severe wine growing areas on the Italian scenery. Thanks to the experience in the vineyard and in the cellar, to a fresh and enthusiastic management, a new and important reality in the Italian wine world developed.
